Quick On

We now offer a complete range of products for keeping things tidy around robot cells and other automation equipment that is enclosed by a safety system. Having everything in the right place at the right time eliminates the need to hunt around for the items you need for tasks such as cleaning, passing on information, documenting or setting up automation equipment. This often saves unnecessary delays and downtime in production cells.

We now offer a complete range of organization products designed to keep work areas tidy around robot cells and automation equipment enclosed by a machine guarding system. Ensuring that essential tools, cleaning supplies, and documents are always within reach eliminates unnecessary searching and reduces downtime.

By keeping everything in its place, operators can quickly access what they need for cleaning, documentation, information sharing, and machine setup. This improves workflow efficiency, minimizes disruptions, and helps maintain smooth operations in production cells.

A well-organized workspace not only enhances industrial safety but also contributes to optimized automation performance. Our solutions integrate seamlessly with safety systems, creating a streamlined and productive working environment.

Models

ARTICLES / DESCRIPTION	
	**X-WSS-PL-1** Plastic Box, RAL1034
	**X-WSS-PH** Binder Holder
	**X-WSS-PSV-PSH** Binder-support
