Click fittings

Axelent's unique Click Fitting system simplifies panel installation with quick top and lower fittings. Secure panels effortlessly on all three sides of the post, ensuring a fast, hassle-free setup. The standard Click Fitting (T00-01) is included in every delivery.

The click-fitting revolutionize the way you attach panels to posts. This smart detail makes the installation simple, swift and hassle-free. Experience the difference with our top and bottom attachments, specially designed for your convenience:

Quick-Click Top Fitting: Say goodbye to the days of struggling with panel placement. Our top fitting is a straightforward click-on attachment that effortlessly secures your mesh panels to all three sides of the post. It's so easy that any fitter can do it, saving you time and effort.

Effortless Guidance with Lower Fitting: The lower fitting acts as your trusted guide, ensuring that your panel effortlessly slides into the correct position. Once your panel is in place, simply click it into the top bracket, and you're all set.

We also offer a versatile Click Fitting (K1-01), for free positioning of the X-Guard post giving you even more flexibility and control in your setup.

The click fitting belongs to the standard assortment and is always included in your delivery.
