Quick On

Vi tilbyder nu et komplet sortiment af produkter til at holde tingene ryddelige omkring robotceller og andet automatiseringsudstyr, der er omgivet af et sikkerhedssystem. At have alt på det rigtige sted på det rigtige tidspunkt fjerner behovet for at jage rundt efter de ting, du har brug for til opgaver som rengøring, videregivelse af information, dokumentation eller opsætning af automatiseringsudstyr. Derved undgås ofte unødvendige forsinkelser og nedetid i produktionsceller.

We now offer a complete range of organization products designed to keep work areas tidy around robot cells and automation equipment enclosed by a machine guarding system. Ensuring that essential tools, cleaning supplies, and documents are always within reach eliminates unnecessary searching and reduces downtime.

By keeping everything in its place, operators can quickly access what they need for cleaning, documentation, information sharing, and machine setup. This improves workflow efficiency, minimizes disruptions, and helps maintain smooth operations in production cells.

A well-organized workspace not only enhances industrial safety but also contributes to optimized automation performance. Our solutions integrate seamlessly with safety systems, creating a streamlined and productive working environment.

Modeller

ARTIKLER / BESKRIVELSE	
	**X-WSS-PL-1** Plastboks, RAL1034
	**X-WSS-PH** Brevordner
	**X-WSS-PSV-PSH** Brevordnerstøtte
	**X-WSS-WBP-2** Whiteboard "hvid", ver. 2.0 (598x410 mm)
	**X-WSS-PS** Pennesæt
	**X-WSS-SH** Skærmholder
	**X-WSS-VT** Værktøjstavle
	**X-WSS-SPH** Sprayholder
	**X-WSS-UL** Universalboks
