Bike-Up Twin Classic

A double-sided bike rack that optimises and maximises the number of cycle spaces you can fit into your cycle storage room. It accommodates 4–10 bikes, which are placed on the floor, and is suitable for both large and small bikes. The bikes are parked at different levels to reduce the width (CC dimension).

The advantage of this rack is that the bikes' front wheels are staggered. This saves you 0.5 metres in depth on each row of bike racks installed - compared to placing traditional bike racks back-to-back. A Safetybar is available as an optional extra for locking bikes to the frame.

The rack is best placed in the centre of a room.

Models

ARTICLES / DESCRIPTION		HEIGHT X WIDTH (MM)	LENGTH (MM)	CC (MM)	SURFACE TREATMENT	OTHER
	**700-22**	575x600	915	375	Hot dip galvanized	Number of bikes 4
