Productos Quick On

Ahora ofrecemos una gama completa de productos para mantener el orden alrededor de células robóticas y otros equipos de automatización rodeados por un sistema de seguridad. Tener todo en el lugar correcto en el momento adecuado elimina la necesidad de buscar alrededor los elementos necesarios para tareas como limpiar, transferir información, documentar o configurar equipos de automatización. A menudo, eso ahorra retrasos innecesarios y tiempos de inactividad en las unidades de producción.

We now offer a complete range of organization products designed to keep work areas tidy around robot cells and automation equipment enclosed by a machine guarding system. Ensuring that essential tools, cleaning supplies, and documents are always within reach eliminates unnecessary searching and reduces downtime.

By keeping everything in its place, operators can quickly access what they need for cleaning, documentation, information sharing, and machine setup. This improves workflow efficiency, minimizes disruptions, and helps maintain smooth operations in production cells.

A well-organized workspace not only enhances industrial safety but also contributes to optimized automation performance. Our solutions integrate seamlessly with safety systems, creating a streamlined and productive working environment.

Modelos

ARTÍCULOS / DESCRIPCIÓN	
	**X-WSS-PL-1** Plastic Box, RAL1034
	**X-WSS-PH** Binder Holder
	**X-WSS-PSV-PSH** Binder-support
	**X-WSS-WBP-2** Whiteboard "white", ver. 2.0 (598x410 mm)
	**X-WSS-PS** Pen Set
	**X-WSS-SH** Screenholder
	**X-WSS-VT** Tool Board
	**X-WSS-SPH** Spray Holder
	**X-WSS-UL** Universal Box
