

# Large Column Guard

Axellent offer a larger column guard for the most flexible protection for larger columns. This guard is suitable for 400mm square columns as standard. There are also infills available to extend the protection up to 1000mm square. The column guard is manufactured in low density polyethylene to give high flexibility and strength.

### X-Protect Standard Configurations

+ the highest impact energy (J) they are capable of withstanding\*

\* The highest force depends on the C-C. More information is available upon request.

### Impact testing

This is how we calculate the energy from a vehicle impact.
