Height 2300 mm with panel

Our X-Rail fall protection system can be used as an edge protection for mezzanine floors. The system is a modification of our X-Guard range and therefore the system can fill dual purposes, mezzanine protection and machine guarding.

X-Rail 2300 mm can be used either without panels or with X-Guard Classic panels - mesh, plastic, and sheet metal.

Note! If no panel is used between the posts – Handrail, Knee rail and kick plate are used. If a panel is used between the posts, only the handrail and kickplate is mandatory.
