Dimensions: 71 x 20 x 20 cm

Bike Up Service Stations - Stations XL 520100K, L 520102K and S 520101K are adapted to use in public spaces. Their housing is made of thick galvanized steel with powder coating and they can be secured to the ground with tough bolts. The tools are attached to long and secure steel ropes allowing easy reach of all bicycle components. The stations are equipped with a hand pump with adapter for all valve types. The XL and L stations allow you to place your bicycle on the stand, so you can easily turn the crank while making repairs. The sheet metal elements of the device are fastened with anti-theft screws; the bits will be passed to the owner by our company.
