

Multifunctional Column Guard

The Multifunctional Column Guard is designed to protect large building columns and pillars from impacts caused by forklifts and other material handling equipment. With asymmetrical on-site adjustment from 250-700mm, it can be tailored to fit various sizes.

Flexible protection for columns and pillars

The modular design allows for quick installation and easy repairs while ensuring a tight fit to save space. These guards are built to stop vehicles like forklifts, protect columns, and withstand heavy use.

Key Features:

-
-
-

Asymmetrical Adjustment: Accommodates widths from 250mm to 700mm, offering flexibility for various column sizes.

Customizable Dimensions: Easily tailored by cutting the rails that form its sides, providing a precise fit for any environment.

- **Impact Resistance:** Effectively stops vehicles, such as forklifts, eliminating or minimizing damage.

- **Floor Protection:** Shields flooring around columns to maintain structural integrity.

- **Ease of Installation and Repair:** Designed for quick setup and effortless repairs when needed.

- **End-of-Life Sustainability:** Simplified disassembly and material separation for eco-friendly disposal.

Models
