Sliding door without rail with centre lock

Sliding door without rail with centre lock are the perfect solution where unrestricted height clearance is required and where a large opening is needed. The door is a good choice where goods must be moved using an overhead travelling crane or fork lift truck.

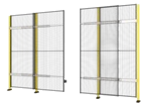

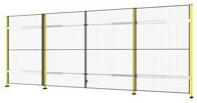

Maximum height is 2300 mm and maximum width is 2800. **The maximum width varies depending on the used locking solution.*

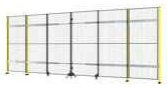

(Posts, handles and panels are not included in the door package. Opening dimensions may be limited depending on the type of lock chosen.)
