Combined hinged- and sliding door

The combined hinged and sliding door merges the benefits of both door types into one compact safety solution. With folding panels on wheels, it allows quick access in spaces with unlimited clearance. Max opening: 3000 or 6000mm, height: 2300 or 3055mm. It meets the Machinery Directive 2006/42/EC.

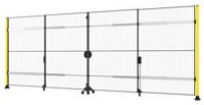

The X-Guard combined hinged and sliding door is a smart, space-saving safety solution that integrates the benefits of both door types. Designed for industrial environments where flexibility is key, it provides a wide opening of either 3000 or 6000 mm while maintaining a compact design.

Equipped with folding panels on wheels, the door is easy to operate—simply slide the panels together and fold them down for quick access. This makes it an ideal choice for workplaces handling forklifts, large goods, or frequent personnel movement. With a maximum height of 2300 or 3055 mm, it fits various industrial needs.

This multifunctional door is perfect for warehouses, manufacturing plants, and logistics centers requiring adaptable safety solutions. It meets the Machinery Directive 2006/42/EC, ensuring compliance with safety standards while optimizing workflow efficiency.

Note: The maximum width may vary depending on the locking solution. Posts, handles, and panels are not included in the door package.

Models

ARTICLES / DESCRIPTION	MAX OPENING WIDTH (MM)	MIN HEIGHT (MM)	MAX HEIGHT (MM)	PANEL	FITS POSTS
 **D56-XXX200A** Combined hinged and sliding door	1900	2000	2500	Mesh	Premium 70x70
