Height Guard

The X-Protect Height Guard is a simple and flexible height warning solution for warehouse and industrial environments. Installed in loading areas, height restricted passages and internal traffic routes, it helps reduce the risk of accidental contact with overhead structures.

The X-Protect Height Guard is designed for warehouses and industrial facilities where vehicles operate close to overhead structures and restricted passages.

Its lightweight and highly visible design makes the system easy to install, adjust and adapt to different layouts and clearance needs. Suitable for loading areas, warehouses and internal traffic routes, the solution helps improve visibility and create safer working environments.

The simple and flexible solution makes it a practical solution for facilities looking for an easy-to-install height warning system that can be adapted as operational needs change.

Key features

- Clear visual height warning
