Double sliding door, overlapping

The X-Guard overlapping double sliding door is a space-saving and flexible safety solution for machine areas. With a max width of 2x2900 mm, it offers dual access points while meeting the Machinery Directive 2006/42/EC. Customizable with locks, sensors, and automation options.

The X-Guard overlapping double sliding door is a smart and space-efficient solution for machine safety. Designed for use with Axelent's machine guards, it allows two access points from a single machine area while ensuring compliance with the Machinery Directive 2006/42/EC. Its overlapping design minimizes space requirements, making it ideal for confined work areas.

Built from high-quality steel, the door is engineered for durability and continuous use. It can be tailored to different sizes, lock options, and configurations, with a maximum width of 2x2900 mm. Additional accessories, such as safety sensors and automation features, can be integrated for enhanced security and convenience.

This sliding door operates smoothly, reducing the risk of workplace accidents and requiring minimal maintenance. Its low-profile design ensures it takes up minimal space while maintaining optimal safety.

**Note: The maximum width may vary depending on the selected locking solution. Posts, handles, and panels are not included in the door package.*
